

AN INTRODUCTION TO

# Hakomi Mindful Somatic Psychotherapy

PRINCETON, NJ  
JULY 7-8, 2017

*"A visionary contribution to mindfulness in psychotherapy."  
-Daniel Siegel, author of "The Mindful Brain"*

*"Hakomi presents some astounding methods for getting to  
core material. It is well-grounded in theory, and revolutionary  
in its results." - Association of Humanistic Psychology*

**Hakomi** integrates mindfulness and somatics into the psychotherapy process with uniquely effective results:

**The dynamic use of mindfulness** is a foundation of the Hakomi Method. When introduced with unique Hakomi techniques, it creates a rapid, experiential access route to the unconscious beliefs and implicit memories which invisibly shape our lives. When unconscious, this material creates projections, conflict and disharmony in our relationships and self-perceptions. Once conscious and directly experienced, it is available for memory re-consolidation and transformation, including the healing of attachment issues.

**Hakomi is a body-centered (somatic) approach.** The body is viewed as a "map of the psyche" - a door that can be opened to reveal the entire character and belief system of the individual. The body's habitual patterns become a powerful access route to unconscious core material.

**Loving presence and the healing relationship** are also central to Hakomi. We develop an exquisite sensitivity and attunement to others, using empathic skills to read and contact "indicators" - subtle, unconscious cues. This creates a deep sense of safety and connection, allowing us to engage the "cooperation of the unconscious."

**In this workshop you will learn to:** integrate psychodynamic mindfulness and use loving presence to transform the therapeutic relationship; use nonviolence to engage the cooperation of the unconscious; and discover subtle, somatic cues to create safe, yet powerful access routes to unconscious material.

**This workshop is designed for** therapists, counselors, social workers, healing professionals and students in these fields. We will experientially learn Hakomi skills and approaches that are immediately applicable, and the workshop also serves as the prerequisite for the Comprehensive Training in Hakomi Mindful Somatic Psychotherapy.

## FACULTY

### Jaci Hull, MA, LMFT

leads Hakomi trainings and workshops throughout the U.S. and Canada. She is on the Hakomi Institute Board of Directors and has served as faculty for the Somatic Psychology program at Naropa University and the Sensorimotor Psychotherapy

Institute. Her training includes Family Therapy, EMDR II, Somatic Trauma Resolution and certification as a Relational Life Therapist. A licensed psychotherapist for over 25 years, Jaci brings her clinical experience, as well as warmth, safety, and humor, to her teaching. Jaci works with individuals and couples in her practice, emphasizing clear, heartfelt and solution-focused communication.
